Enjoy our Canadian Shield!

The **Canadian Shield** is the ancient geological core of Canada, formed over 3 billion years ago. It has since been altered greatly by Mother Nature and Father Time.

The recent ice age, which ended a mere 10,000 years ago, tore away fertile top soil; massive glaciers gouged out long narrow lakes.

The **Canadian Shield** is rich in mineral ore, supplying the world with large contributions of gold, silver, nickel and diamonds.

Erosion wasted away what once was our planet's highest mountain range, to what we now witness as rocky and rolling hills. The Adirondacks of New York and the Laurentians of Quebec are vague reminders of the **Shield's** towering history.

We are left today with the **Shield's** stark beauty, deep forests and thousands of fresh lakes, all for us to enjoy and preserve.

Our golf course has been professionally designed to surround us with this nature. You are in touch with the **Canadian Shield**

Please...

- Use Astroturf mats.
- Replace divots.
- Allow faster players through.
- 6 strokes per hole maximum, then pick up and count 7.
- 4 player maximum.
- Each player must have set of clubs.
- Wait until players are away from the green before teeing off.
- Keep carts away from greens.
- Proper attire is required.
- We are not responsible for injury, loss, damage or theft.
- Liquor regulations require that only alcoholic beverages purchased at Canadian Shield can be consumed on the property.

**Be sure to take a break in our licensed dining lounge.
We serve only the best! Relax and enjoy The Shield.**
