ENVIRONMENTAL POLICIES

Mission Statement

"Silver Brooke Golf Club will provide golfers with an enjoyable playing field and beautiful surroundings while protecting and restoring the environment."

Environmental Policies:

1. Create a healthier design of the land use
2. Maintain a diversity of plants and animals
3. Promote hardiness, disease resistance and adaptability for the plant and animal species.
4. Protect ecosystems and ecological communities
5. Improve water quality
6. Minimize erosion
7. Create positive, progressive and constructive attitudes about the natural world
8. Create lower maintenance landscapes, reducing our dependency on water and the production and use of chemicals
9. Re-naturalization where needed

Silver Brooke Golf Club is a member of the Audubon Cooperative Sanctuary System of Canada and would appreciate all members and guests helping us reach and maintain our environmental policies by refraining from entering the designated environmental sensitive areas on the golf course.
