

1 **The Gordon.** Tee shot should be right of center for ideal approach. Let pin placement determine club selection for approach to the deep green.

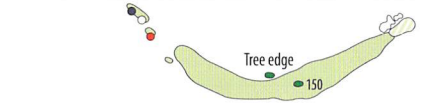

2 **Lake Bonnell.** Two solid shots are needed to reach this green. If unable to get on in two, the best pitching area is directly in front of the green.

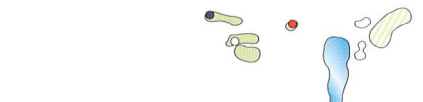

3 **The Dewar.** Hole can be visually deceiving. Rely on yardages for club selection. Green putts quickly from back to front.

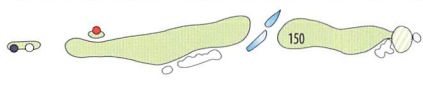

4 **Lonely Monarch.** Keep drive to left of center as fairway falls away dramatically to the right. A low iron or fairway wood is recommended.

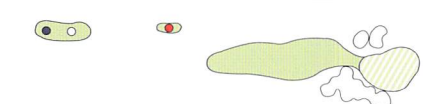

5 **Ink Pot.** Swirling wind can make club selection difficult. Aim for the center of the green.

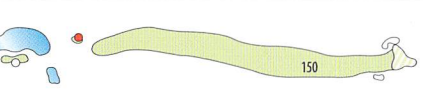

6 **Twin Ponds.** Position tee shot left of center. Fairway slopes strongly right. Fairway bunkers to right must be respected.

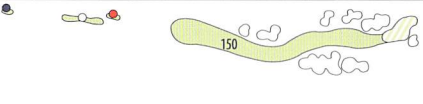

7 **Needle's Eye.** Large undulating green could require an extra club. Note yardage as hole appears shorter than it is.

8 **The Pine.** Partially blind tee shot. Drive left of center. Both ponds are factors for second shot.

9 **Island View.** Fairway bunkers challenge many on tee shots. Back third of green slopes downward. Aim for the centre of the green.
